# |Our IP'S

## **Transport Management System**

End to end transport management system that offers full visibility of the entire transportation cycle through a single dashboard

## **Boardroom Meeting Schedule Displaying System**

Digitize technology to enhance meeting room experience through a single interactive display unit

# Hyper Automation for Today's Business Environments

As a UiPath Managed Service Partner, our partnership allows us to leverage on a unique service offering for our customers: Bots-as-a-service. We offer our customers the freedom to choose how they wish to use our licensed bots and processes.

Just like people, software robots can do things like understand what's on a screen, complete the right keystrokes, navigate systems, identify and extract data, and perform a wide range of defined actions which the automated software robots can do faster and more consistently than people and even without taking a break !

The reality of the near future of technology will be that people will work hand in hand with robots to assist them in their daily task, making robotics, a new norm of humans' lifestyle

| We have the solutions to suit any business in any industry

Telecommunication

Banking, Finance & Insurance

Enterprise & Conglomerates

Logistics

Small, Medium Businesses

Public Sector
